I momenti di relax, si sa, sono i più preziosi.

Ed è proprio per questo motivo che vale la pena valorizzarli con un sistema doccia dal design accattivante.

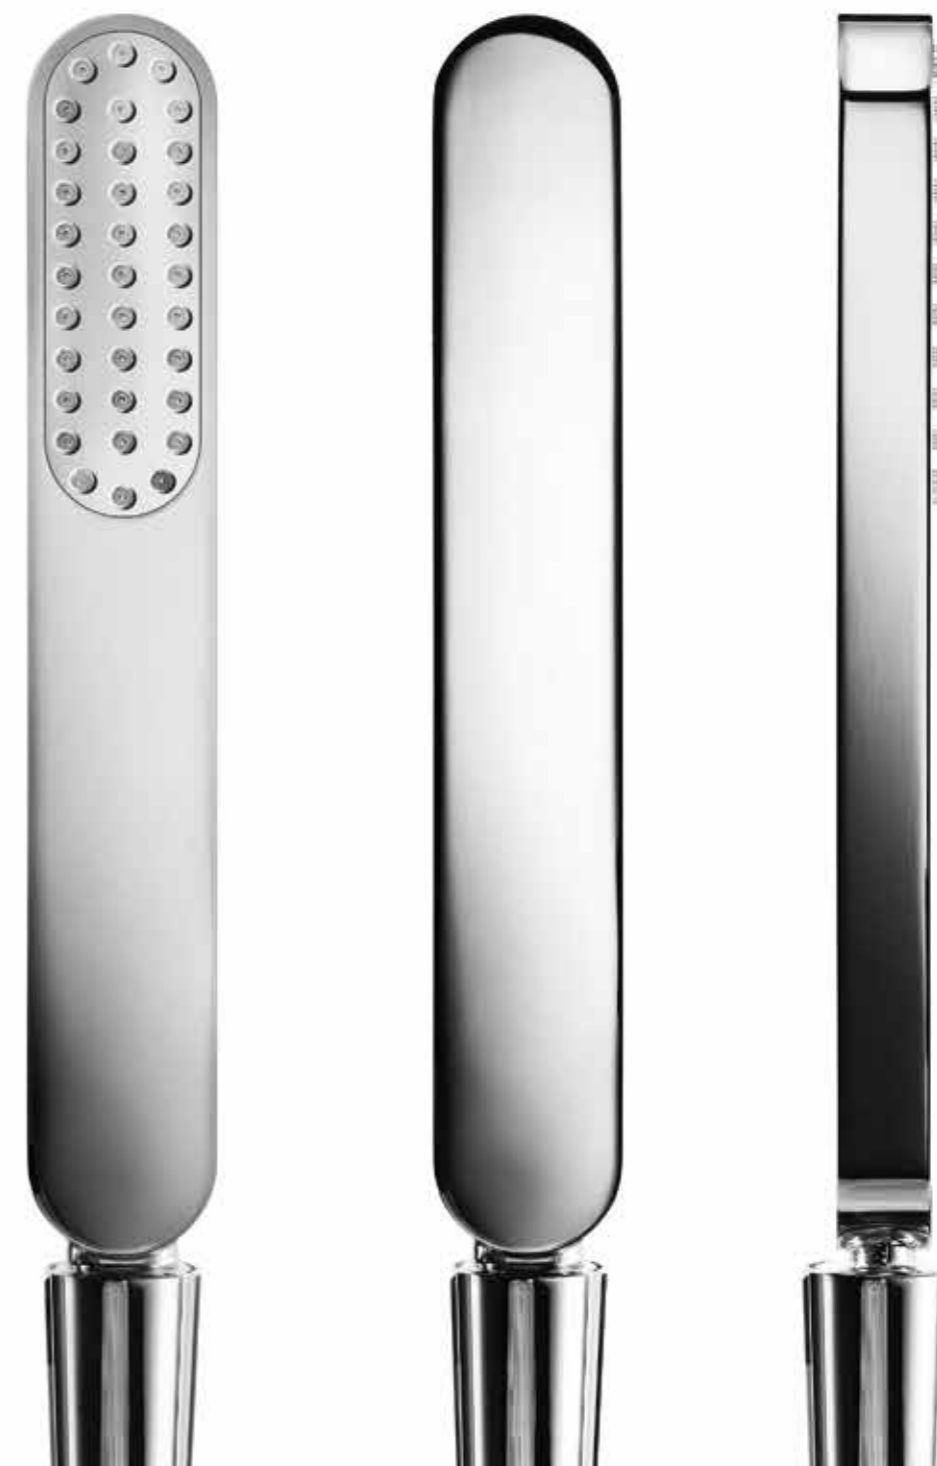

Kuky, questo il suo nome. Un nome che rimanda a dolci e piacevoli momenti, anche nella forma.

Il sistema doccia Kuky si fa amare per il suo stile, uno stile che innalza a livelli di puro piacere i momenti di intimo relax, enfatizzato dalla qualità dei materiali e dal design moderno e innovativo. Il sistema doccia Kuky saprà impreziosire il vostro bagno con un tocco di raffinatezza, creando una dialettica davvero interessante con gli altri componenti d'arredo.

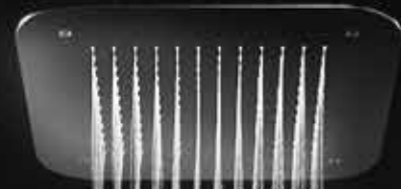

Relaxing moments, as you know, are the most precious ones.

This is why it's worth enhancing them with a shower system of attractive design. Its name is Kuky.

A name that leads to sweet and pleasant moments, even in form. Kuky shower system has a beloved style which arises the intimate relaxing moments to pure pleasure emphasized by quality in materials and in modern and innovative design. Kuky shower system will enrich your bathroom with a sophisticated touch mixing itself successfully with the surrounding furniture.

Creamy

SHOWER SYSTEM

Nuove forme e nuovo stile.

Dall'esigenza di avvicinamento ad un design più morbido e sinuoso, nasce Creamy shower system.

Gli angoli lasciano spazio a linee più armoniose e rotonde per un nuovo orizzonte di piacere.

In completa sintonia con l'ambiente circostante, Creamy shower system saprà regalarvi un dolce senso di benessere.

New shapes and new style.

Creamy shower system is the result of the need to approach to a softer and more sinuous design.

Sharp corners turn into more harmonious and rounded lines for a new horizon of pleasure.

In full harmony with the surroundings, Creamy shower system will give you a feeling of sweet comfort.

Emotion

Emotion

Creamy

Creamy

Le doccette Emotion e Creamy sono nate per soddisfare le esigenze più ricercate che il design e le tecnologie moderne pretendono. Un connubio che unisce le massime funzionalità in minimi spazi con un attenta ricerca nelle linee .

A voi la scelta tra un getto AIRPOWER per colpire il vostro corpo, un getto MASSAGE per rigenerarlo dopo una giornata dura e intensa, un morbido getto RAINAIR che oltre ad accarezzare il vostro corpo lo rivitalizza e rende la vostra doccia un momento di vero piacere.

Emotion and Creamy hand showers have been created to satisfy the most refined demands of design and modern technologies. A union of maximum functionalities and minimum space with a careful study of lines. You can choose between an AIRPOWER jet to hit your body or a MASSAGE jet to invigorate it after a hard and busy day or a soft RAINAIR jet that, while caressing your body, revitalizes it and turns your shower into a moment of real pleasure.

COMPANY

Siamo un'affermata azienda italiana specializzata nella produzione di sistemi doccia. La nostra forza imprenditoriale è data dalla capacità di anticipare le tendenze e ottimizzare i processi produttivi, privilegiando sempre la qualità dei nostri prodotti.

We're a well-established Italian manufacturer of shower systems. Our entrepreneurial strength lies in the ability to anticipate trends, optimize production processes and privilege the quality of our products.

Rispondendo alle principali norme UNI ISO 9001-2008, garantiamo elevati standard qualitativi grazie ad apparecchiature di ultima generazione ed una continua formazione del nostro personale, fornendo al cliente un ciclo completo di servizi e consulenze, dalla progettazione (anche per progetti OEM) al prodotto finale, sfruttando al meglio il know-how acquisito in anni di esperienza diretta nel settore.

We guarantee high quality levels of performance in line with the main UNI ISO 9001-2008 standards thanks to last generation machinery and trained personnel. We offer our customers a complete range of services and counselling from CAD design (even for OEM projects) to the final product availing ourselves of the know-how experience acquired during the years.

DESIGN & TECHNOLOGY

Il nostro ufficio di ricerca e sviluppo attribuisce molta importanza all'eleganza, alla funzionalità e alla qualità del prodotto. Grazie alle tecnologie più avanzate e alla continua formazione, i nostri tecnici sviluppano sempre nuovi prodotti e apportano continui miglioramenti perseguendo sempre l'obiettivo di garantire benessere a chi utilizzerà i sistemi doccia.

Our R&D department is focused on elegance, the functionality and the quality of the product. As result of advanced technology and persistent personnel training, our designers and technicians constantly develop new products and keep on improving with the pursuit of ensuring comfort to whom will use the shower systems.

Research and development

Design

Injection moulding

Mould manufacturing

NORMATIVE

La nostra azienda pone particolare attenzione verso le più importanti normative mondiali. I nostri sistemi sono studiati seguendo i continui requisiti che gli enti richiedono per dare all'utilizzatore un prodotto sicuro e garantito nel tempo.

REGULATIONS

Our company pays particular attention to the most important global regulations.

Our systems are designed according to the ongoing features requested by institutions to give the consumer a safe product guaranteed over the time.

Tutti i nostri articoli sono prodotti utilizzando tecnopolimeri omologati secondo le più severe normative internazionali per il contatto con acqua potabile mentre la componentistica metallica è prodotta con materie prime che rispettano le normative ambientali. Abbiamo quindi potuto ottenere le più severe certificazioni di prodotto a livello mondiale per la potabilità dell'acqua e per le caratteristiche tecnico funzionali.

All our products are made of technopolymers approved by the most strict international regulations related to drinking water while metal components are made of raw materials in compliance with all environmental regulations.

We got in this way the most strict global product certifications for contact with drinking water and technical and functional features.

WATER SAVING

Particolare attenzione nella progettazione e nello sviluppo dei prodotti è rivolta alla riduzione del consumo energetico, pur mantenendo inalterato il comfort che i nostri sistemi doccia hanno sempre garantito.

La creazione di soffioni e docce con l'innovativo sistema di distribuzione interno permette di isolare completamente la parte estetica del prodotto dall'acqua, diminuendone il consumo e migliorando le prestazioni funzionali a basse pressioni.

When designing and developing products, particular attention is paid to the reduction in energy consumption keeping the comfort of our shower systems unchanged.

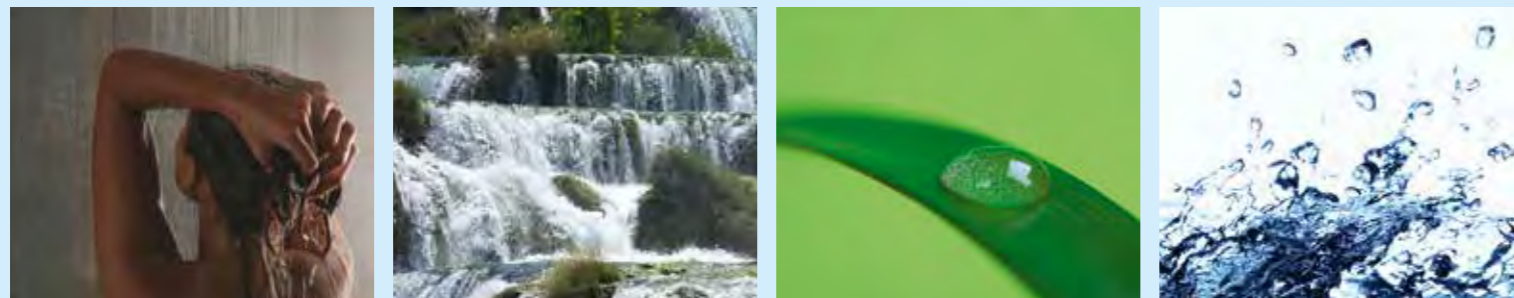

The production of head and hand showers with the new inner distribution system allows to isolate completely the aesthetic part of the product from water and decreases consumption with better functional performances at low pressures.

save water, add comfort

La progettazione del nuovo sistema EcoAir permette di ridurre ulteriormente il consumo dell'acqua di circa il 50%. Sfruttando l'effetto Venturi, il nostro sistema EcoAir miscela l'acqua alle particelle d'aria ottenendo come risultato un getto d'acqua ancor più piacevole in grado di donare sensazioni di profondo benessere.

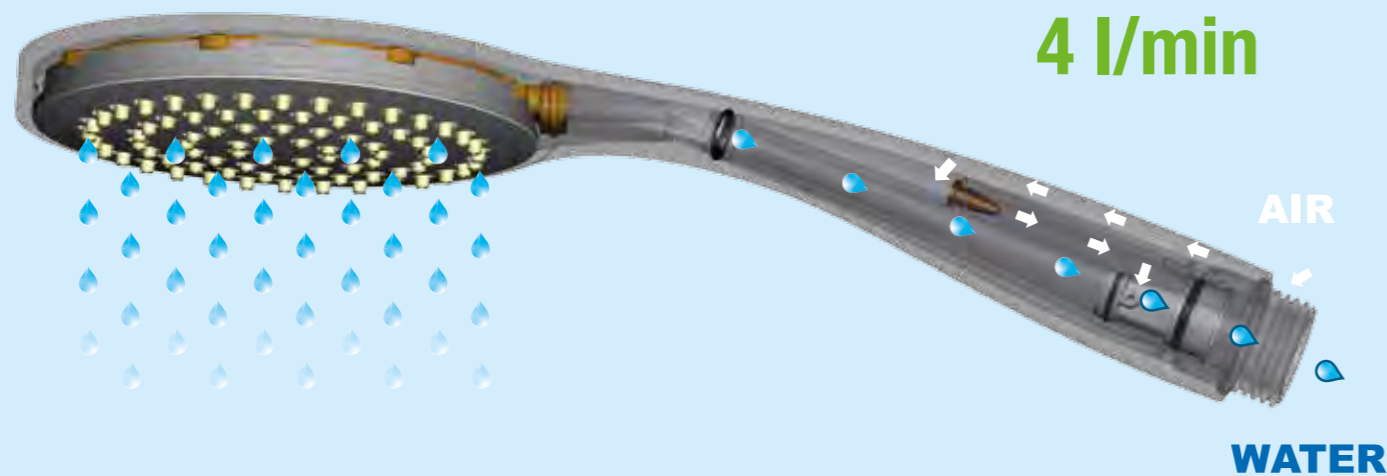

The new EcoAir system design grants a further 50% water saving. Making the most of the Venturi effect, our EcoAir system mixes water to air particles getting the result of an even more comfortable water jet able to give feelings of deep well-being.

EcoAir System è un dispositivo brevettato che, sfruttando l'aria esterna miscelata all'acqua, conferisce alla nostra doccia un getto unico e piacevole, ottimizzando sensibilmente il suo consumo.

EcoAir System is a patented device that, by using the outside air mixed with water, grants our hand shower a unique and pleasant jet optimizing significantly its consumption.

EcoAir System è disponibile sui soffioni della serie Emotion e sulle docce della serie Emotion e Creamy, vedi p.100/107

EcoAir System is available on shower heads of Emotion series and hand showers of Emotion and Creamy series, see p. 100/107

INNOVATION

EcoAir System trasforma l'acqua in una pioggia dolce e rigenerante. Combina acqua ed aria in un vortice di sensazioni piacevoli.
EcoAir System turns water into a soft and invigorating rain. It combines water and air in a vortex of enjoyable sensations.

COMFORT

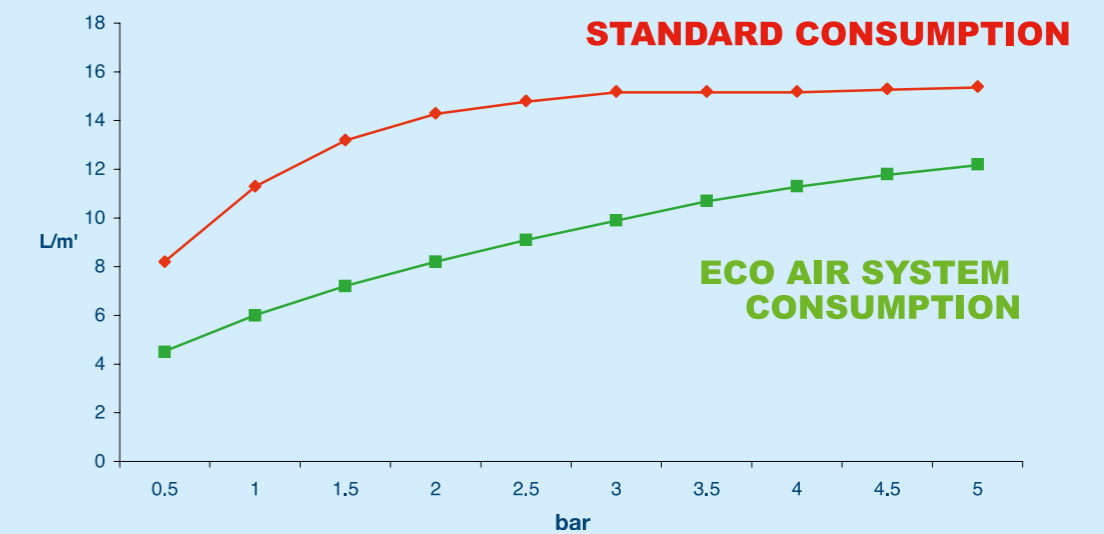

La tecnologia EcoAir System aumenta il piacere di fare la doccia e riduce il fabbisogno d'acqua. Infatti il sistema permette di avere sempre, su molte dimensioni di docce e soffioni, una pioggia di sensazioni gradevoli e rilassanti.
EcoAir System increases the pleasure of taking a shower and reduces water consumption. This system, available on many sizes of head- and hand showers, always provides a pleasant and relaxing rain.

WATER SAVING

EcoAir System si pone come obiettivo un comportamento ecologico a protezione del clima e dell'ambiente. Questo sistema permette un ottimo comfort sensoriale con un risparmio del consumo dell'acqua pari al 50%.
The aim of the EcoAir System is that of preserving climate and environment. This system allows the best sensational comfort with 50% water saving.

PERFORMANCE

EcoAir System garantisce un getto gradevole anche con basse portate o pressioni di utilizzo, infatti con l'arricchimento dell'aria, le gocce d'acqua diventano più corpose, leggere e morbide.
EcoAir System ensures a pleasant jet even with low flows and low pressures as drops, enriched by air, become more voluminous, lighter and softer.

La tecnologia EcoAir è un'applicazione funzionale e costante su ogni valore (range) di pressione e di portata e questo permette un'applicazione senza limiti del sistema.

The EcoAir technology is functional and constant on each range of pressure and flow rate allowing a no-limit application of the system.
